

BeGreen PACKAGING LLC Supermarket Trays

These natural supermarket trays are a sturdy, unbleached, compostable replacement for the Styrofoam trays often found in grocery store meat departments. They are freezer, microwave and oven safe, making them some of the most versatile products on the market. Their Cradle-to-Cradle certification and compostability also makes them Earth friendly. Made from bulrush and other fast growing plants that regenerating easily. It's an ideal raw material that is both sustainable and annually renewable. Once pulped the fibers are molded into supermarket trays, sushi trays and other take-out containers.

Sturdy, unbleached trays

- Made from annually renewable bulrush and other plant fibers.
- BPI certified compostable
